Go to the iTunes App Store and search for **Speech Sounds for Kids – Australian Edition**

Available on the **App Store**

Speech Sounds for Kids

Australian accents!
Australian vocab!

This brilliant new app for iPads targets:

- *speech production
- *phonemic awareness
- *auditory discrimination

Provides *hours and hours* of speech sound and early literacy programming.

- Phonetic placement cues
- Articulation video clips
- Fun animated sound clips
- Clips of gestural cues
- Sound in isolation and sound in word activities
- Contrast sound and word activities
- Auditory bombardment audios for each sound
- Voice recording & playback
- Data recording
- Listening discrimination tasks (sound and word)
- Capacity to send results via email to therapist

***Targets all consonant phonemes (except /ng/ and /zh/)**

***Practise sounds in words with over 300 coloured pictures**

***Familiarises children with basic sound-letter links**

***Great for rural and remote speech pathology intervention!**

***Perfect for home programs!**
